Statement of School Aims

2026 - 2027

The British International School Casablanca is a vibrant, co-educational day school which balances its modern outlook with our traditional British values.

Our aim is to provide the highest standards of learning and teaching to ensure all our students fulfil their academic potential, regardless of their ability. We do this by providing a broad and engaging academic curriculum, which encourages intellectual curiosity as well as fostering a lifelong love of learning.

The school also provides compassionate and consistent pastoral support throughout all levels of the school through its highly effective pastoral system. This means each boy and girl feels valued, respected, and supported throughout their time at BISC.

Above all else, we aim to safeguard the health and safety of everyone at our school, as well as ensuring the emotional well-being of all our students in an empathetic and nurturing environment.
